Dear Lyle Jaffe,

I am writing to tell you that both I and my mother (V. Pollard) support the petition to ban the forced molting of layer hens (docket 98P-0203/CP).

This forced molting only adds more suffering to the terrible lives of these poor hens and results in contaminated eggs.

This process has been banned in the U.K. and most European countries, and I sincerely hope that in the future it will be banned in North America.

Please help to do this.

Yours sincerely,

Victoria Forbes &  
Victoria Pollard.
